Sprint 1 Report

1/29/16

IDEal Team: Chris Kyle, Greg Biles, David Sun, Max Kerscher-Santelli, Kevin McCotter, Cole Lampert

What should we stop doing?
- We should come to group work sessions prepared with something to work on. We need to have a clear direction for what we are aiming for at the end of the session.
- We should keep our scrum meetings more on topic so that we get more work done and waste less time.

What should we start doing?
- We should start more actively taking responsibility for the tasks on our scrum board.
- We should start following the scrum management technique a little more closely.

What is working well that we should continue doing?
- Our communication is on point, everyone is actively following slack and github.
- We should continue learning Web2py so that we can move forward with our project.

What work was completed?
- We completed our goal of learning web2py.
- We set up our scrum board set up.
- We have a large amount of documentation to move forward, we have done a lot of research.
- We are all significantly more familiar with web2py.

What work was not completed?
- We were not able to set up a barebones text editor.

What is our rate of completing work?
- We are spending on average six hours a day on this project.
- We are completing an average of 3 story points per day.
- Our ideal work hours were 126 work hours (one hour per day per person)
- We did meet our ideal work hours.
